yumekoigardens.com

- Developed eCommerce website for local business to showcase products and koi for sale using Shopify and Craft for client content management

AUTOMATED ADD-TO-CART BOT

github.com/bryanvtran/supreme

- Developed a script that scans the Supreme webstore (supremenewyork.com) for new items based on specific key words/pictures and automatically check out when found
- Automated process to purchase items quicker (~3 seconds)

Work Experience

ARKAIVE, INC.

Front-end Developer

Los Angeles, CA • March 2016 – Present

- Bridged the gap between design and engineering to build a responsive, user-friendly dashboard for school administrators and athletic departments
- Debugged across the stack, working with back-end developers to solve issues and implement new features across the Symfony website with Twig template engine

UCLA OFFICE OF RESIDENTIAL LIFE

Computer Support Technician

Los Angeles, CA • Sep 2015 - Present

- Administered technical computer support for over 180 professional and student staff in Residential Life, troubleshooting a wide array of technical issues
- Maintained inventory of computers, peripherals, and printers, protecting hardware and account security
- Coordinated with team to migrate 180+ computer systems to UCLANET server, updating hardware and transferring user profiles

MCMXC CLOTHING, INC.

Web Developer

Huntington Beach, CA • Aug 2015 – Dec 2015

- Designed and launched the official company website (www.mcmxclclothing.com) using Bootstrap, integrating it with the online clothing store to create UX-optimized design
- Photographed and edited several lines of clothing to be used in the website lookbook and online store catalog

BE WELL NUTRITION, INC.

Account Manager

Los Angeles, CA • Jun 2015 – Sep 2015

- Responsible for managing sales and relationships with 50+ accounts in Southern California for the company's product, developing a retail pitch and reaching out to distributors
- Served as intermediary between customer service and sales, understanding how to meet customer demands
- Performed extensive industry research on competing protein drinks, tracking and analyzing competitors
